The Ultimate Guide to learn SQL from scratch

- Database Structure: Understanding tables, columns, rows, and primary/foreign keys..
- Data Types: Knowledge of various data types (numeric, character, date, etc.) and their appropriate use
- SQL Commands: Proficiency in basic SQL commands like SELECT, INSERT, UPDATE, DELETE, and their syntax.

PROJECTS

Portfolio website. My portfolio is a visually striking platform showcasing my web design expertise. Built with HTML, CSS, and Java, it offers a seamless user experience with interactive animations and a responsive layout.

Used Car Price Prediction - Logistic Regression model. This project aimed to develop a machine learning model capable of accurately predicting the price of used cars. A Logistic Regression model was employed to analyze a dataset containing various car attributes, including make, model, year, mileage, and condition.

Notes app My Notes app is a simple yet effective tool for managing daily tasks and ideas. Designed with a clean and intuitive interface, the app allows users to effortlessly create, edit, and delete notes. .
